Abstract: As a part of our international activities and as a leading institution of PEN-International, Tsukuba College of Technology planned “The Exhibition of Students’ Works from Chinese Special Education Colleges”, which showed the works of students of three post secondary educational institutions in the People's Republic of China; Technical College for the Deaf of Tianjin University of Technology, Special Education College of Changchun University and Special Education College of Beijing Union University. The exhibition was held three times in three different places in Japan.

Key Words: Special Education, Hearing impaired, China, Students’ Work, Exhibition

Background of the exhibition

Tsukuba College of Technology has sister institution agreements with three Chinese Colleges and is hoping to promote further exchange with them. We proposed our plan of exhibition to the delegates of the three Chinese Colleges at the PEN-International Business Meeting in April 2004 and they approved it there. In the process of planning out the exhibition, we determined that ten pieces from each Chinese college be displayed at our exhibition, and it would take place three times in Japan in October 2004.

The Exhibition of Chinese Students’ Works 1 (Fig. 1)

The 5th International Symposium of Tsukuba College of Technology was held on the 1st October, 2004, on the subject of “The Presence and the Future of Higher Education for the Students with Disabilities in China and Japan”. President Ohnuma Naoki of Tsukuba College of Technology, President Bao Guodong of Technical College for the Deaf of Tianjin University of Technology, President Qu Xue Li of Special Education College of Beijing Union University and President Wang Aiguo of Special Education College of Changchun University gave presentations and a panel
discussion took place. The Exhibition corner was set up in the Auditorium Entrance Hall and the efforts of post-secondary education for handicapped students in China was introduced to the participants.

**The Exhibition of Chinese Students’ Works 2 (Fig. 2)**

11th All Japan Conference of the late deafened and hard of hearing in Tokyo took place 8th~10th, October, 2004. This conference held open lectures on hearing impairment and a trade fair of hearing compensation equipment was held together. Our Exhibition corner was set up in the conference hall and it attracted remarkable attention of the people who are deaf or hard of hearing and the people working with them.

**The Exhibition of Chinese Students’ Works 3 (Fig. 3)**

Our Exhibition, named “Exhibition of Students’ Works from Chinese Special Education Colleges and Tsukuba College of Technology” was held 15th to 17th October, 2004 in extensive and modern Tsukuba Museum. The exhibition displayed the wonderful works of students with disabilities and it gave a splendid impression to the people living in the home area of TCT.

This was our first experience to plan out an exhibition of works from foreign institutions. It was our great pleasure to hold our exhibition three times at three places and introduced the works of students with disabilities to a lot of Japanese people. We would like to thank our colleagues in China and the U.S.A for their warm partnership and friendship here again. At the end of this paper, we would like to express our expectation that an international exhibition of works of students with disabilities will be held someday in the near future.

**Review of “Exhibition in Japan of Students’ Works from Bao Guodong, President of Technical College for the Deaf in China”**

Exhibition of Students’ Works from Chinese Special Education Colleges was held successfully in Japan in October, 2004. It was quite a cheerful event This exhibition vividly showed several art works of Chinese students with different disabilities. These works fully reveal the students’ art talent and love of life and demonstrate that they are full of an optimistic view of life. This exhibition certainly was able to leave a nice impression to every visitor.

The success of this exhibition is owed to the faculty of Tsukuba College of Technology. We are quite grateful to Mr. Araki Tsutomu and all other ladies and gentlemen who worked hard for this exhibition.

Success of this exhibition fully reveals the arduous and cooperative spirit between Chinese and Japanese educators of special education. I earnestly hope that cooperation among educators and colleges of special education of our two nations will be developed further and make more contributions to the friendship between Chinese and Japanese people.

中国特殊教育大学の学生作品展
Exibition of Students' Works from Chinese Special Education Colleges

世界には聴覚や視覚障害者のためのさまざまな大学高等教育機関があります。ここに展示する作品は、中国の特殊教育大学で学ぶ聴覚障害学生が作った作品です。

筑波技術短期大学
学長・大沼多紀（日本）

ロチェスター工科大学 国立理工科大学
ジェームス・デラノ教授（アメリカ）

天津理工大学

筑波技術短期大学では、聴覚障害者のための高等文教機構が設立されており、その活動の一環として中国三大学になるまでに学ぶ聴覚障害者の作品展に合わせて展示することができます。今年の作品展は10月1日、本学が開催する国際聴覚障害者支援フォーラムに参加し、中国の大学における聴覚の重要性と聴覚障害者の在学を表し、世界の高等文教機関も学ぶ聴覚者の作品展として紹介するものです。

筑波技術短期大学は来年10月に4年間の「筑波技術大学（仏教）」となり、さらに世界の聴覚者のための高等文教を先導する国際的な大学として発展することを目指しています。ご来場の皆様のお引き立てに感謝申し上げます。
