History of NTID Interpreter
Training and Education

Presented for
PEN-International
By
Donna E. Gustina, Chairperson
American Sign Language and Interpreting Education

April 23, 2007
Peter Peterson, a Deaf teacher at the Minnesota School for the Deaf, wrote in 1930...

“A national technical institute for the deaf...located in a large manufacturing city, is what deaf young America needs more than anything else...
such an institution should include several buildings filled with modern machines, appliances, tools, materials, dormitories...a gymnasium, library, tennis courts, trees, shrubs, flowers, a director...a staff of competent instructors, and 500 students.
...A dream, yes, and a possibility.”
National Technical Institute for the Deaf Act - 1965

- Public Law 89-36
- Final bill drafted by Congressman Hugh Carey of New York State
- Signed into law by President of the United States, Lyndon B. Johnson
- Over 20 Colleges and Universities applied to host NTID on their campus and to include Deaf students in their programs
Rochester Institute of Technology

- Over 137 years of history as a technical school
- Specialization in professional and technological education
- Strong cooperative work experiences
- Rochester Community highly receptive
- Large Deaf Community
RIT Mission

- ...provide technology based education programs for lifelong career development
- ...teaching, learning and scholarship – central enterprise
- ...pursue new and emerging career areas
- ...develop curricula in response to changing technology and social conditions
- ...maintain internal and external partnerships
NTID Mission

- ...provide Deaf students technical and professional education programs
- ...prepare Deaf students to live and work in the mainstream
- ...prepare professionals to work in fields related to deafness
- ...support applied research designed to enhance social, economical and educational accommodations of Deaf people
- ...provide outreach and information dissemination
1968 – First Class of 70 Deaf Students

- Immediate need for Sign Language Interpreters
- CODAs (Children of Deaf Adults) and TODs (Teachers of the Deaf) became de-facto Interpreters on volunteer basis
- 1969 – first training program - Basic Interpreter Training Program (BITP) with 15 RIT students
- 10 week summer intensive
- Trained over 500 interpreters
U.S. Government Legislation

- 1973 – Rehabilitation Act
- 1975 – Education for All Handicapped Children Act now called Individuals with Disabilities Education Act
- 1990 – Americans with Disabilities Act
Increased Demand for Interpreters Nationally

- K – 12 Settings (Mainstreaming, Inclusive Education and “No Child Left Behind”)
- Post Secondary Programs
- Community events, jobs, services, etc.
Increased Demand for Trained and Qualified Interpreters

NTID Responded with:

- 1982 – Associate of Applied Science Degree – AAS (2 years)
- 2001 – Bachelor of Science Degree - BS (4 years)
- 2007 – 135 students enrolled in the ASL/English Interpretation Program
Future of Interpreting Education in the United States

- By 2012 Bachelor of Science degree required for Educational Interpreters
- New York State and NYS Department of Education with Technical Assistance Center and NTID/ASLIE
